1	(1) Healthy People 2020 defines social deter-
2	minants of health as conditions in the environments
3	in which people live, learn, work, play, worship, and
4	age that affect a wide range of health, functioning,
5	and quality-of-life outcomes and risks.
6	(2) One of the overarching goals of Healthy
7	People 2020 is to "create social and physical envi-
8	ronments that promote good health for all".
9	(3) Healthy People 2020 developed a "place-
10	based" organizing framework, reflecting five key
11	areas of social determinants of health namely—
12	(A) economic stability;
13	(B) education;
14	(C) social and community context;
15	(D) health and health care; and
16	(E) neighborhood and built environment.
17	(4) It is estimated that medical care accounts
18	for only 10 to 20 percent of the modifiable contribu-
19	tors to healthy outcomes for a population.
20	(5) The Centers for Medicare & Medicaid Serv-
21	ices has indicated the importance of the social deter-
22	minants in its work stating that, "As we seek to fos-
23	ter innovation, rethink rural health, find solutions to
24	the opioid epidemic, and continue to put patients

1	first, we need to take into account social deter-
2	minants of health and recognize their importance.".
3	(6) The Department of Health and Human
4	Services' Public Health 3.0 initiative recognizes the
5	role of public health in working across sectors on so-
6	cial determinants of health, as well as the role of
7	public health as chief health strategist in commu-
8	nities.
9	(7) Through its Health Impact in 5 Years ini-
10	tiative, the Centers for Disease Control and Preven-
11	tion has highlighted nonclinical, community-wide ap-
12	proaches that show positive health impacts, results
13	within five years, and cost-effectiveness or cost-sav-
14	ings over the lifetime of the population or earlier.
15	(8) Health departments and the Centers for
16	Disease Control and Prevention are not funded for
17	such cross-cutting work.
18	(9) Providing grants to public health depart-
19	ments and other eligible entities to coordinate cross-
20	sector collaboration will allow a community-wide, evi-
21	dence-based approach to address underlying social
22	determinants of health.
23	SEC. 3. SOCIAL DETERMINANTS OF HEALTH PROGRAM.

2	profit organizations and public or other nonprofit in-

7	ing, and evaluation assistance to grantees under

12	tivities of the Centers for Disease Control and Pre-
13	vention related to social determinants of health with
14	activities of other Federal agencies related to social
